with other prior art fails to disclose a method as recited in independent claims 1 and 10.

In particular the key distinction between the closest prior art of Natarajan and the instant claimed invention is that the closest prior art does not rely upon embedding a second public watermark into said first public watermark-embedded media content, said second public watermark being generated with a second private key of a content distributor and certifying a second copyright of the distributor, in combination with other elements as required by the claims.

Accordingly, claims 1-20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
